CAREER OBJECTIVE

I Seek Challenging Opportunities Where I Can Fully Use My Skills For The Success Of The Organization

PROIJECT

Portfolio

Your portfolio should be organized in a clear and concise manner, making it easy for potential employers or clients to navigate and find the information they're looking for. using high-quality images, videos, or graphics to showcase your work.

Material Management System

The Material Management System is a state-of-the-art and user-friendly platform developed using the MERN stack, integrating MongoDB, Express.js, React, and Node.js. This ambitious project aims to streamline and enhance the management of academic materials, providing a comprehensive solution for students, faculty, and administrators. The front-end is developed using React, the backend is powered by Node.js, and MongoDB serves as the database.

Banking Application

A bank application is a software program designed to facilitate banking operations for both customers and employees of a bank. The application can be accessed through a desktop computer or mobile device, providing users with a secure and convenient way to manage their finances.

Myntra Clone

This project is a clone of Myntra Web Application. It has React components like Header, Footer Carousels etc. This application has featured with Sign-in and Sign Up and JWT token. We provide custom and ready to go solution for our online e-commerce platform to boost up our sales and attract customers with our Myntra Clone Application.

DECLARATION
